La qualità del

MADE IN ITALY

con la garanzia del marchio

TECNOLOGIA AVANZATA AL SERVIZIO DELLA TRADIZIONE

GARANTITA DAI PIU' ANTICHI COSTRUTTORI ITALIANI DI BOCCE METALLICHE

Fin dal 1955 una passione meticolosa distingue la produzione delle **BOCCE CAUDERA**.

L'esperienza maturata in oltre 50 anni (*dal 1957 Campioni del Mondo*), ed una tecnologia sempre all'avanguardia, ci permettono di offrire un'ampia scelta di modelli pronta a soddisfare sia gli appassionati che i professionisti alla ricerca del "colpo maestro".

La boccia è un oggetto "meccanico" e la Boccia Caudera prodotta dalla Off. Meccanica F.lli Caudera, azienda leader in questo settore racchiude in sé tutta l'esperienza e la tecnologia sviluppate in oltre mezzo secolo di storia.

La qualità garantita dall'uso di leghe di straordinaria resistenza e dai meticolosi controlli, fanno delle **BOCCE CAUDERA** un prodotto altamente affidabile, garantito 12 mesi.

Con il suo acquisto vi garantirete le prestazioni di uno dei migliori prodotti presenti sul mercato.

Le "BOCCE CAUDERA" sono lavorate interamente con "macchinario progettato e costruito" dalla OFF. MECC. F.LLI CAUDERA.

Moltissime delle rigature del catalogo "Design" possono essere realizzate unicamente con l'utilizzo della "nuovissima e ns. esclusiva macchina rigatrice a 5 assi a Controllo Numerico".

BOCCE METALLICHE

La Boccia Caudera da gioco di tipo **"lionese"** viene realizzata mediante fusione in pezzo unico in due differenti leghe speciali di bronzo, la lega **"gialla"**, la più diffusa e con durezza maggiore, e la lega **"bianca"**, più morbida e performante nella bocciata.

La Boccia Caudera è caratterizzata da una perfetta equilibratura e sfericità, qualità che le conferiscono da un lato ottima scorrevolezza, bilanciamento e direzionalità nell'accosto, dall'altro un rimbalzo minimo nella bocciata. Queste caratteristiche non si alterano nel tempo.

E' disponibile nelle seguenti tipologie:

Boccia di tipo N

Vuota

Boccia di tipo P

riempita con anelli speciali in gomma trattati con sostanza lubro-ammorbidente, in grado di offrire alte prestazioni nel tiro e nel punto.

Boccia di tipo PS

riempite con anelli speciali in gomma, intrecciati e graffiati con spirale metallica, eccellenti per il tiro e perfette per il punto.

Boccia di tipo PM

riempite con sistema cablato composto da molle spiroidali tonde ed anelli speciali in gomma, intrecciati, graffiato con spirale metallica, ideali per il tiratore ed eccezionali per il tiro di precisione.

Boccia di tipo TB

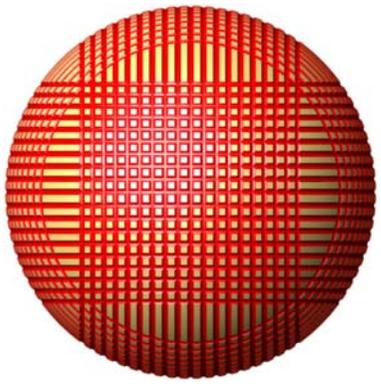

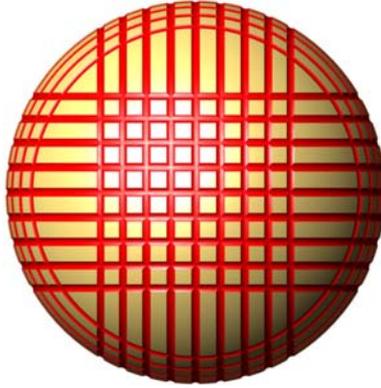

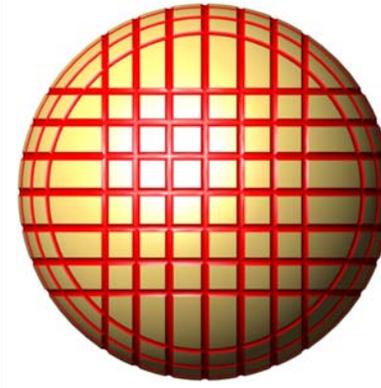

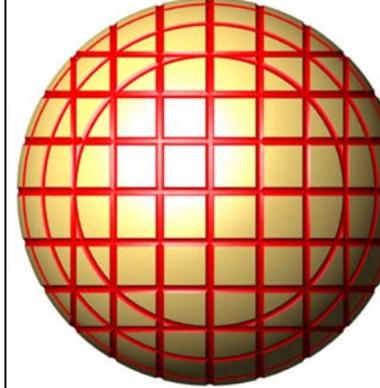

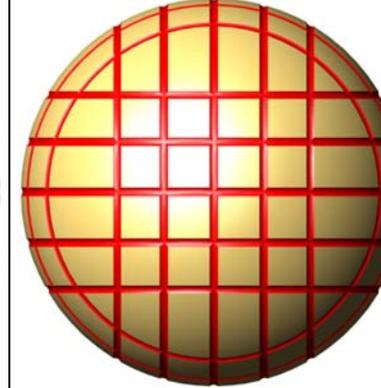

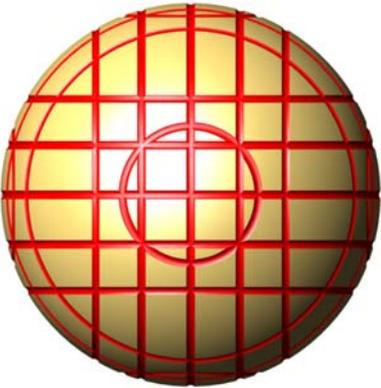

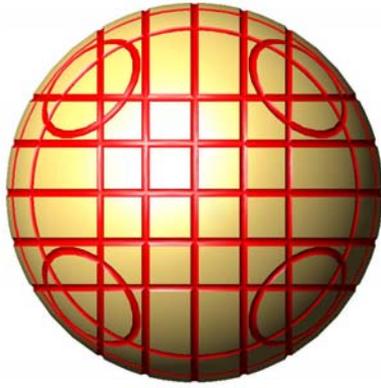

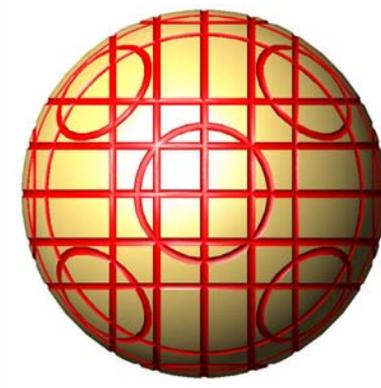

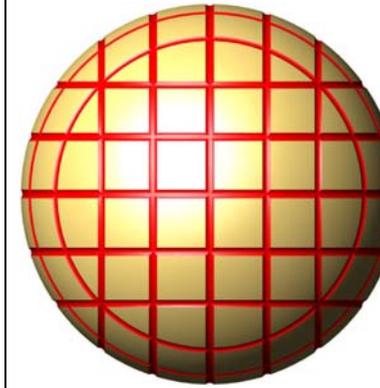

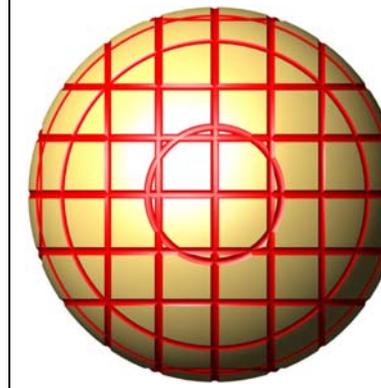

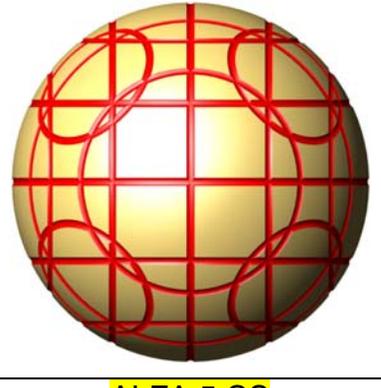

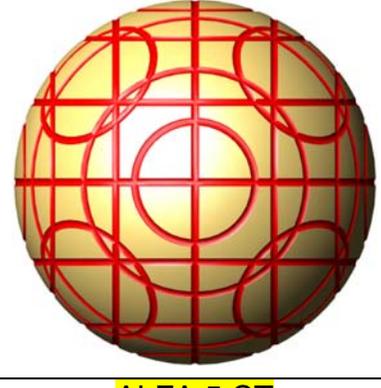

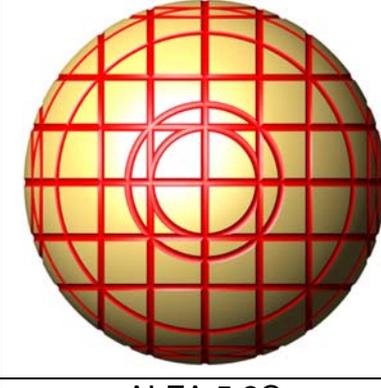

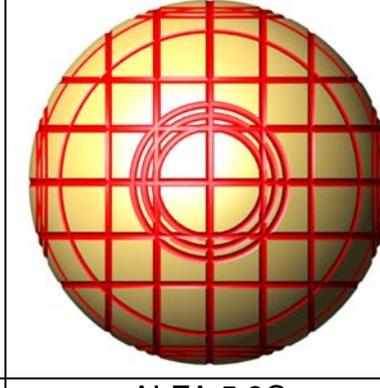

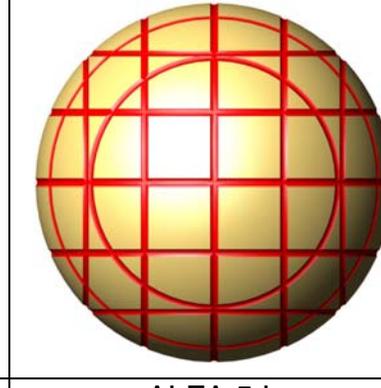

riempite con sistema cablato composto da "doppie molle" spiroidali tonde ed anelli speciali in gomma intrecciati e graffiati con spirale metallica, ideali per il tiratore ed eccezionali per il tiro di precisione.

RIGATURE e COMPLEMENTI

Potrete personalizzare la vostra Boccia Caudera con la rigatura preferita fra le tante proposte del nostro catalogo **Design**, il più ricco del mercato e completare la scelta con le splendide borse della linea **Collection** e gli accessori della serie **Techno** indispensabili per il vostro sport preferito.
